

## **VIDERI INCOME DISCLOSURE**

The Videri Operations Inc. (“Videri”) Compensation Plan is an exciting opportunity that rewards you for selling products and services and for sponsoring other participants who do the same. Although the opportunity is unlimited, individual results will vary depending on commitment levels and sales and networking skills of each participant (referred to as “Independent Business Owners” or “IBOs”). Since Videri has recently launched, it lacks enough statistical data to prepare reliable income disclosures. The numbers below reflect estimates prepared by the company pending a more detailed survey to be conducted after its first year. The average annual gross income for IBOs is conservatively guessed to be anywhere between \$350 and \$1,100. There will certainly be IBOs who will earn less while others will earn much more. We’re excited about the Videri Compensation Plan and we’re confident it will provide you a solid foundation to help you achieve your financial goals.

If income projections were presented to you prior to your enrollment, such projections are not necessarily representative of the income, if any, that you can or will earn through your participation in the Compensation Plan. These income projections should not be considered as guarantees or projections of your actual earnings or profits. Success with Videri results only from hard work, dedication, and leadership.
